CAREER OBJECTIVE

Motivated and creative individual seeking opportunities in AI Prompt Automation to develop efficient AI-driven solutions, improve workflow automation, and create effective prompts for artificial intelligence systems. Eager to apply technical, problem-solving, and design skills while continuously learning and growing in the field of AI technology

EDUCATION

Bachelor of Science in Computer Engineering
University of Cebu - main campus
2027

TECHNICAL SKILLS

- Basic Programming: Python (intermediate level)
- Computer Hardware Troubleshooting
- Microsoft Office (Word, Excel, PowerPoint)
- Google Workspace Tools
- Basic Networking Concepts (IP, DNS, LAN/WAN)
- Operating Systems: Windows

PROJECTS

• Tindahan Tracker

A web-based system that helps store owners manage inventory, sales, and product information in one platform. It improves accuracy and reduces manual work for small businesses.

• TransitPro Bus Ticketing System

A web-based platform for managing bus routes, schedules, and trip details in real time. It helps passengers and operators stay updated and improves transportation organization.

• Crypto Calendar

A web-based educational tool that demonstrates basic cryptocurrency and digital asset concepts. It simulates wallet interaction and market-style data to help users understand blockchain systems.

INTERNSHIP / OJT EXPERIENCE

R.A-Tech Computer & Laptop Repair Shop (or your actual OJT place)

- Assisted in basic troubleshooting of computers and laptops
- Observed hardware diagnostics and repair processes
- Learned customer service and technical support workflow

SOFT SKILLS

- Problem-solving
- Teamwork and collaboration
- Time management
- Attention to detail
- Willingness to learn
